BEST AVAILABLE COPY

Slot HotAdd operation for PCI card done.

Complete these additional procedures for Operating System to recognize the new PCI card.

- 1. From the system console issue < hscan > command.
- 2: Press & Alt > < Esc > until the hin screen is displayed. . . .
- 3: Complete all load (and bind, for NIC card) commands at the command line for the card(s) you have performed HotAdd operation, using the Slot number displayed by him
- 4. Add the required command to the not files, so that the cards initialize if the server is rebooted.
- 5. Press the < F5 > key to refresh the Mib tree information.

OK
